Only for women Artists

1st July to 30th July, 2021 | Curator
R K Chaudhary

If you hear a voice within you saying, “You are not a painter,” then by all means paint... and that voice will be silenced.

— Vincent van Gogh

Behind the Birth of Life | Founder's creation

The history of art is littered with the names of great men—Leonardo da Vinci, Vincent Van Gogh, Pablo Picasso, etc. But what about the women who have helped shape the world's visual history? As with many other fields, women were historically discouraged from pursuing a career in the arts, yet there are many incredible females who persevered. These famous female artists have more in common than their gender and career path—they are all trailblazers in their own right, with many breaking barriers in their personal and public life.

Organizations like BINDAAS ARTIST GROUP always take steps and looking forward to motivate and appreciate our life creator as art creator.

CHITRANKAN is one of the art competition and online art exhibition for all the creative female minds to explore her emotion and thoughts.

PROPOSED JURY

Hina Bhatt
Pune, India

Hina Bhatt is a passionate artist based out of the cultural capital of India Pune. Having completed her graduation in fine arts from Stella Maris College, Chennai, Hina worked extensively as a textile designer, before going back to her first love-painting.

As an artist Hina uses her creative instinct and originality to express the spiritual intimacy which she believes we share with the universe. She says that nature has its own way of attracting every artist and revealing its truths to us. She's an avid observer for everything around her and her deep connection with the nature is evident from her artworks. Her works represent multiple interpretations of themes like spiritualism, religion, philosophy and human relations and development of the same. Be it her series of roots or reflections, her each artwork express her deeply contemplating mind and emotions.

Hina Bhatt opines that life is full of pre-determined spiritual contexts that comprehend the divine connections and this has been influential in her works. She explores this influence, to bring out the roots of life contexts that govern our lives and which prevails both in our psyche and in our practices. Her compositions are a brilliant visual metaphor that represents the inner instruments of mind and senses by which we guide our bodies through life. She majorly works in the mediums pen, acrylics and oils.

Hina has displayed her works since 2005 in many shows both in India and abroad. Her artworks are in the art collection of both private and corporate art collectors in India and abroad.

PROPOSED JURY

Argenita Fetahu
Kosovo

The paintings have an intriguing power to the eye and the mind of the viewer, putting their intuition into play, besides the ocular (visual) part. Uncovering the personal unit, always trying to give a didactic message (moralizing) is the focus, apart from the other important part: technique, composition, placement of light and shade, background, pattern position, and the way of painting.

The space has enormous importance and therefore is considered as something necessary to give space as a title because depending on the country, the paintings have taken on another context, most of which are carried out in a closed environment, as were the experiences personal, within the world and its worldview.

I have a preference for abstract art with organic lines using curves and waves. These display great movement as a result of harmonic lines based on the woman, her shapes and the various stages she passes through in this society. Air can be observed in most of my works of art since my intention is to dive into the infinite projection and the need to get involved in spiritual elevation. Last but not least, circular visual textures are incorporated into my sculptures, accompanying their movement.

Taking lessons from professionals of old classical Art school my painting became filled of sense. Same time, changing experience with modern artists from all over the world brings new fresh lines and visuals into my works.
